

NOTICE

ATTENTION: HOMEOWNERS, CONTRACTORS, BUILDERS, DEVELOPERS, ENGINEERS, ARCHITECTS, and SURVEYORS

EFFECTIVE JANUARY 4th, 2010

With the goal of improving the plan review process, beginning **January 4th, 2010**, plans will be automatically routed (when applicable) through a review by the Miami-Dade County (MDC) Water and Sewer Department's (WASD) New Business Section. This automatic routing will be part of the regular Permitting and Inspection Center (PIC) Plan Central process. The change will result in advising applicants sooner in the plan process of WASD's comments and requirements.

To assure a smooth transition and to answer any questions you may have concerning the improved process, a public meeting is scheduled for **December 14th, 2009**, at **3 pm**, in conference rooms I and J of the MDC PIC.

For more information concerning meeting date and location contact Ms. Ania Zas at 786-315-2800.
